## Possible Murder In St. Paul Death

Police Probe Finding of Body of Missing Farmer

Police today are investigating the possibility of murder in connection with the mysterious death of a 34-year-old St. Paul farmer.  
RCMP from St. Paul and Edmonton moved into the territory about 100 miles northeast of Edmonton today following discovery of the body of Nick Pacholek about 3 p.m. Tuesday.

Pacholek has been the object of a week-long search.

One man has been arrested on a holding charge pending further police investigation.  
The body of the young farmer was found by a search party led by Corporal Ellis of the St. Paul RCMP detachment. It was located about 20 miles from Spedden, near St. Paul, on the Hamilton road.

### SHOTGUN WOUND

Details of the affair have not yet been released by police, but it was learned that Pacholek died on May 14, of a shotgun wound through his head.

When last seen, Pacholek was working his farm at Spedden, and police believe he was slain with a 12-gauge gun as he was plowing.  
Police said the man they are holding was a former laborer on Pacholek's farm, and disappeared shortly after the shooting.

Pacholek was born and raised in the Spedden district, but was not missed for some days after the time police say the shooting occurred.

### ALARM RAISED

First alarm was raised early last week when neighbors noticed belongings of the victim being moved from his farmhouse.

Inquest is being held in St. Paul this evening under coroner J. P. Desse.

It is believed a murder charge will be laid following the inquest.

## Edmonton Is Big Leader In Business

By DICK JACKSON

Edmonton Bulletin Ottawa Bureau

OTTAWA, June 2.—Edmonton continued leading the brick-forward march of business in Alberta during the first four months of the year, the trade and commerce department's Dominion Bureau of Statistics today reported.

Business done by cheque—and the bureau considers this the most accurate measuring stick of the economy—January through April was \$460,281,000 up \$29,862,000 from \$430,419,000 for the same period last year.

This was an advance of 17.5 per cent compared to increases of 14.7 for Calgary 4.9 for Lethbridge and 3 per cent for Medicine Hat.  
Volume of business done by cheque, the bureau long has contended reflects employment, wage and salary levels and industrial and agricultural production with delicate accuracy.

Edmonton's gain for April alone was 20.3 per cent over the same month last year, jumping from \$101,588,504 to \$122,162,400. April was ahead of March's \$116,338,086. The Alberta capital was well ahead of the trend for all Canada, for in the first four months of the year, the Dominion advance was 9.5 per cent against Edmonton's 17.8. The city was ahead of the trend in the first four months of the year, 20.3 per cent against 13.5 per cent for all Canada.

## War With Russia Said 'Plausible Possibility'

WASHINGTON, June 2.—(BUP)—The House appropriations committee today slashed American military fund requests by nearly 10 per cent despite a warning from army chief Omar Bradley that war with Soviet Russia is a "plausible possibility."

Nevertheless, the committee said, the \$6,599,000,000 it allocated would be provided for a 700,000-man army and a 66-group air force of 444,500 men just as asked by the nation's top defence officials for the fiscal year starting July 1.

The army was allowed \$59,736,200,000 and the air force \$8,801,736,000. No funds were included for

aircraft since Congress previously had passed a plane procurement bill providing the air force with \$600,100,000 in cash and \$6,087,900,000 in contract authority. Still to come is a navy bill in which president Truman asked \$3,900,000,000.  
Committee action followed weeks of hearings, highlighted by Gen. H. H. Arnold's grim statement: "The precipitation of armed hostilities, either by a deliberate act or by accident, is a plain possibility so long as our forces face each other in opposing frontiers in this strained atmosphere of distrust and tension."

## Three Feared Drowned In Buck Lake Boat Tragedy

RCMP are carrying out dragging operations at Buck Lake, about 80 miles southeast of Edmonton today in search of three persons believed drowned.

Those believed drowned are J. H. Burleigh, 47; Alfred F. Pearson, 31; and Norma Bernice Bergstrom, 24.

All are from the nearby district of Minnehik.  
Pearson, who was part operator of a lumber camp, and Miss Bergstrom were to be married soon.

The trio was fishing in the huge lake Sunday afternoon when a strong wind storm came up. It is believed the boat overturned and all drowned.  
The boat was located Monday night by a special plane which flew over the lake in search of the party. It was overturned and drifting about a mile from shore.  
Search for the missing trio was started Sunday night when they did not return to shore and residents of the area became anxious.  
J. Burleigh was employed by the provincial department of lands and mines as a timber inspector. He had been with the department since 1941. It is believed he has a brother at Edison and a sister at Jasper.  
The trio was last seen about 1 p.m. Sunday, two hours after leaving the shore. Search for them was resumed Sunday night when they did not return to shore and residents of the area became anxious.

# Illegal Optical Combines Cost Canadians Millions of Dollars

Oregon Town Scene of Flood Devastation

MAROONED ON HOUSETOPS, citizens of flood-ravaged Vanport, Oregon, await rescue after a dyke burst Sunday and spread destruction and death in wake of

swirling waters. Jumble of uprooted houses gives evidence of terrific force of torrent let loose as dyke shattered before force of pent-up waters.

## Clear, Cooler Weather Here

Bright clear skies are expected to rule over most of Alberta today.

Temperatures, however, will be five to 15 degrees below yesterday's readings.

A few showers are expected in Saskatchewan and Southern Alberta this afternoon.

Temperatures of 50 and over were reported from several prairie points Tuesday, the warmest being Coronation with 54.

Canada's cool spot overnight was Jasper with 36. Other temperatures were:

High Low	High Low
Grande Prairie 58 44	Victoria 69 49
Calgary 58 44	Vancouver 68 49
Edmonton 58 30	P. Rupert 60 43
Penhold 58 47	Kamloops 77 51
Lethbridge 58 46	Penticton 58 46
Calgary 58 46	Jasper 58 46
Vernon 58 46	Regina 58 46
Coronation 54 51	Whitby 58 46
Med. Hat 58 46	White River 58 46
N. Battleford 58 46	Estevan 58 46
Saskatoon 58 46	Ottawa 58 46
Yorkton 58 46	Albany 58 46
Swift Curr. 58 46	Brandon 58 46

## Bill May Increase Pari-Mutuel 'Take'

OTTAWA, June 2.—(CP)—Racing associations will get two per cent more on each race from pari-mutuel betting pools if a bill now before parliament is passed.

The bill, given first reading in the Senate last night, was introduced by Senator Wishart Robertson, government leader. It would permit racing associations to retain a deduction of nine per cent on races where the total amount staked is \$20,000 or more.

The present allowance is seven per cent.

The bill, an amendment to the Criminal Code, will go to the Commons if it passes the upper house.

## Last Railway Link From Vancouver Cut by Floods

By George Finlay

### CNR Service To Kamloops Friday

Train service into British Columbia, interrupted by floods in that province, will be partially restored Friday, Canadian National Railways officials said here today.

Trans-Continental train No. 1, from the east will continue on to Kamloops and other Okanagan stations starting Friday. At present CNR trains are operating only as far as Blue River.

On the Prince Rupert line, trains will operate through as far as Ketewa, commencing Thursday. Neither CNR or CPR trains are able to reach Vancouver.

Louise Suggs To Meet Jean Donald For Golfing Title

ST. ANNE'S—ON THE SEA, Lanc. England, June 2.—(CP)—Louise Suggs, United States champion, and Jean Donald, who holds the Scottish title, qualified today to meet tomorrow in the 36-hole final for the British women's golf championship.

Miss Suggs defeated Dorothy Kieley of Los Angeles, 4 and 3, in one semi-final match this afternoon when she drove off a 16-foot putt to beat Kieley of England, 2 and 2.

VANCOUVER, June 2.—(CP)—Another rail link from Vancouver—the only one open since Saturday—went out today when the Fraser river washed over the tracks of the Great Northern Railway in south New Westminster.

A 2,000-foot washout halted all trains to the south, blocking out services from Vancouver to Seattle.

River defences south of the railway bridge at New Westminster, 11 miles from Vancouver, crumbled during the morning.

Flood-control workers were rushed to the scene, and supplies of sandbags and other block-diking materials were taken in by trucks.

OTHER LINES CUT  
The CPR and CNR rail lines to eastern Canada were cut last Saturday after washouts near Field, B.C., and the CNR, shops division at Port Mann, where today the yards are flood-swept.

Plans were underway to provide a shuttle bus service around the Great Northern break. It is planned to run trains as far as Blaine, Wash., from Seattle. Buses will be run from Blaine to Vancouver and return.

CNR officials today reported improved conditions east of Kamloops.

The line will be opened as far east as Kamloops by midnight today. The westbound line was disrupted during the morning.

Representatives of the three brotherhoods met for three hours with presidential labor adviser John R. Steelman in another effort to settle the dispute over wages and working conditions.

A railroad strike was averted three weeks ago when the government seized the carriers.

The union leaders left the White House saying that the conferences had come to an end without settlement.

## Operations Work To Inflate Prices

By John Leblanc

OTTAWA, June 2.—(CP)—Several illegal combines have been operating to inflate prices in the Canadian optical goods trade, Justice Minister Hiley was advised officially today at the end of an eight-year-old federal investigation.

F. A. McGregor, commissioner under the combines investigation act, named two United States optical companies, a Canadian subsidiary and a group of Canadian wholesalers as having combined "against the interest of the public."

The elaborate operations of the group in keeping up the prices of eye spectacles, the report indicated, cost Canadian purchasers millions of dollars a year.

Control of patent licenses has been the device used to hoist prices in the optical trade, the commissioner found, and his report marked the first Canadian instance in which a patent licensing system has been cited as principal factor in an illegal trade restraint.

REPORT IS STUDIED  
Hiley said no decision has been reached on the question of court action growing out of the commissioner's finding. The 60,000-word report is under study.

Officials said also that the question of prosecution doubtless would be considered, too, by the Attorney-General of the provinces—all of which have been included in operations of one or another of the combines.

The report showed such conditions as these:

1. The combines forced opticians and opticians to charge not less than \$15 for glasses costing \$5.50.

2. A minimum retail price of \$10 was set for glasses costing \$4.20.

3. Lenses costing \$1.50 a pair had to be sold for not less than \$5.

4. Low-priced lenses were taken off the market under combine pressure and the prices of others were jacked up.

Further, the commissioner found, the combines charged the public in a large proportion of sales actually were above the minimum set by the alleged combine.

SALES UP 2½ PER CENT  
While the commissioner did not estimate the cost to the public, he indicated that sale of optical goods to retailers by the 26 chief Canadian wholesalers in 1947 was worth \$8,400,000—or 2½ times that of 1939.

In the same year, the public had paid more than \$18,000,000 on eye glasses and the services accompanying their purchase.

Combine profits, apparently, lay in some proportion of the difference between these figures.

Commissioner McGregor's figures were based on an investigation (Continued on Page 3)

See "Optical Combines"

## Extension To Arena Delayed

The \$100,000 extension to the arena to provide an estimated 2,000 additional seats cannot be proceeded with this year.

Charles E. Wilson, managing director of the Edmonton Exhibition Association, announced today that steel for the extension would be delivered until January 1, 1949.

He said that structural plans for the extension were being drawn and that postponement of construction would enable more detailed study of the proposed addition, and a possible enlargement of the scheme.

Decision to extend the arena approximately 20 feet to the south was made early this year following a campaign by The Edmonton Bulletin for a better deal for the hockey public.

U.K. Underestimates Deficit On Trade

LONDON, June 2.—(CP)—Sir Stafford Cripps, chancellor of the exchequer, admitted today that the government underestimated the trade deficit for the first six months of 1948 by \$252,000,000 or 46 per cent.

Cripps said that if the present trend continues, the government might have to reduce further its imports of food and raw materials.

Only Air, First Class Mail To Go To Flooded Areas

OTTAWA, June 2.—(CP)—Only a light on the right of the flooded area of British Columbia, the post office of British Columbia, announced today.

He said the restriction is necessary because of the difficulty of communications through the flood region. The only means of transportation is by air.

Bertrand said the restriction will remain in effect until further notice but said that full mail service would be restored as soon as possible.

## SHE'S NOT WASTING AIR MAIL STAMPS

CHICAGO, June 2.—(AP)—"Yes, ma'am, weather conditions between the east and west are generally good," forecaster Paul F. Sutton assured a woman who telephoned for information.

Then he went on to explain cloud formations, icing conditions and wind direction.

"But do you think the planes will fly from Chicago to the east tonight?" she asked anxiously.

"Yes," he opined.  
"Thank you. Then I think I'll send my letter air mail."

**INSURANCE-AGENT-TURNED-PILOT** is Gordon E. Smeltzer, Edmonton businessman who arrived back Tuesday from Wichita, Kansas, where he took delivery of his new Cessna plane. He plans to make everyday use of the aircraft to conduct his insurance business. —Photo by Bland.

### NEW GAS WELL FOR MANVILLE ANNOUNCED

Completion of a good producing gas well to supply the town of Manville with gas, was announced today by C. H. Wilcox, Lloydminster drilling contractor.

Manville is 120 miles east of Edmonton, 12 miles west of Vermilion.

The well has been bottomed and pipe cemented at 1,400 feet. It is hoped to supply gas to customers in Manville in two weeks.

About 100 consumers will be supplied.

The Manville Creamery will be the first firm supplied.

The company which drilled the well is made up of Manville businessmen.

The well was drilled in 30 days.

Tests are also being conducted at the St. Paul Syncline Gas and Oil Co. well at St. Paul, 127 miles northeast of Edmonton.

Tests have brought a good showing of both gas and oil from Cretaceous sands at a depth of 1,577 feet.

**By Don Killips**

Soliciting insurance in all parts of Alberta is a big job for a firm operating only one office, but an Edmonton agent has solved the problem.

Gordon E. Smeltzer, of Smeltzer and Company, has purchased his own airplane to keep in touch with contacts in every part of the province.

Mr. Smeltzer, although he has not yet had time to put the plane into operation for his business, said he bought the aircraft because he feels it is a practical and safe way of travelling.

"And I don't believe it will be a bit more expensive than car travel," he said.

Smeltzer was influenced into buying the plane through two of his salesmen, Keith Smeltzer, his son, and Gerald Stephenson.

Both were pilots in the RCAF for more than four years during the war.

The insurance agent took delivery of the plane right off the assembly line at Wichita, Kansas, earlier this week and flew it to Edmonton via Winnipeg.

The plane is a shiny new Cessna 40 and will be equipped with two-way radio.

Actual flying time from Wichita was 10 1/2 hours. Total distance was 1,065 miles and average flying speed was more than 117 mph.

"Only piece of land we flew over during the long trip that we couldn't have landed on was at Elk Island Park, just before we reached Edmonton," he said.

Mr. Smeltzer is "just an infant" in the field of flying.

He started taking lessons at the Edmonton Flying Club last winter and made his first flight February 21.

He obtained his private pilot's license on May 20 and shortly afterwards left for the plane factory.

## Freckles Chief Worry Of Pro Barbara Ann

OTTAWA, June 2.—(CP)—Sun-tanning Barbara Ann Scott today was more worried about freckles than the professional contract she signed in Toronto yesterday.

"This is my first day as a professional," she said in an interview last night with the Canadian Press. "Incidentally," she added, "this is also my first press interview as a professional skater."

She spoke from a secluded cottage in the Ottawa area by telephone. (She asked not to disclose her whereabouts.) While rumors floated that she was in Toronto and Brockville, Barbara Ann sun-bathed and worried about her freckles.

"I had them last winter in Europe. Now I guess I'll get them again."

Barbara Ann had no idea just what sort of work she will have to do as a professional. She may do some pictures and if so, hopes they will be located in Canada. She will also do some personal tours but "all this was in the hands of my lawyers."

"My contracts may take me out of Canada for a few months. If I have to go, I hope it won't be for long because I will miss my country."

### 'Phone Pioneers Elect Officers

Officers of the Alberta Chapter of the Telephone Pioneers of America were elected at the group's annual meeting in Calgary recently.

They include president Ralph W. Long, secretary, vice-president, William Massey, Edmonton; secretary-treasurer, Walter K. Evans, Edmonton; and directors, William Jamieson, C. G. Toppley, Calgary; A. C. Smith, Three Hills; Keith Horne, J. P. Ogilvie, T. Robb, George Kirkwood, Edmonton; and E. J. Elder of Cardston.

Tribute was paid to eight members of the chapter who died during the past year.

Plans were made to hold the 1949 annual meeting in Edmonton.

### Prowse Speaks To City Grits

Recent Alberta legislation, and its effects on agriculture in the province, formed the basis of a talk Tuesday by Harper Prowse, Alberta Liberal leader, to the Edmonton Liberals.

Mr. Prowse also told the Liberals that disagreed with the penalties clauses inserted in the Alberta Labor Act, which imposed heavy fines on union officials calling "illegal" strikes.

He said the penalty clauses already appearing in Alberta legislation had never been invoked.

Mr. Prowse also dealt with a few of the recommendations of the Judge report on municipal taxation.

### History Made In Air Travel

Trans-Canada Airlines will fly 40 passengers directly from Edmonton to Vancouver in a huge North Star plane today.

It will be the first time in history that a TCA passenger flight goes nonstop to Vancouver from Edmonton.

The plane is to take off at 5 p.m. and arrive in Vancouver at 7:15 p.m. Standard Time.

It is expected that such direct flights will continue daily for about one week until flood conditions improve in British Columbia.

TCA officials deny rumors that Vancouver airport has been flooded and out of service. Landing field at Vancouver is free from water, they state. It is not necessary to fly passengers on to Victoria as was rumored.

## Fruit, Vegetables Are Scarcer Still

### Little Easement Seen Except for Tomatoes

The fruit and green vegetable picture looked bleak for Edmontonians today.

Supply of fruits and vegetables has been almost entirely cut off by the current embargo on rail traffic to and from Vancouver.

Embargo will be on until June 7, and normal service is not expected to be resumed for several weeks.

Sole ray of light in the grim situation was the announcement by N. Chapman, manager of West and National Fruit Companies that 8,000 pounds of hothouse tomatoes will arrive by airplane today from Vancouver.

Another 6,000-pound plane load will arrive in Edmonton tomorrow.

Supply of oranges and lemons is almost nil in Edmonton at present.

THE BULLETIN was informed today that California growers are now refusing to ship fruits to the Canadian west, because of the rail situation in British Columbia.

Unofficial word was received here that U.S. railways in the American West have also ceased operations because of floods.

It means that the only California citrus fruits which may be shipped here will have to be re-routed through the U.S. midwest, coming to Canada through Manitoba.

Indications are that none will alleviate the current Edmonton shortage for at least a week.

Manager of the Edmonton fruit company told THE BULLETIN today: "We have no fruit or green vegetables up here, and we have nothing coming in."

It is expected that bananas will also be in short supply for some time.

Officials of the Canadian National and Canadian Pacific Railways have stated that Edmonton will be "very short of green vegetables for some time."

Normal supplies of asparagus, cabbage, lettuce, spinach and other vegetables which come from British Columbia at this time of year have been entirely cut off.

The situation is aggravated by the embargo on imports of vegetables from the U.S. imposed by the federal government to conserve U.S. dollars.

First B.C. fruit to be hit by western floods will be strawberries.

Strawberry shipments are usually well underway by June 15, but this year it looks as though the rail situation will cut Edmontonians off from normal supply.

About 80 per cent of Alberta's commercial berries come from the Mission region of British Columbia.

Mission is almost in the centre of rampaging flood waters.

## Optical Combines Cost Millions to Canadians

(Continued from Page 1)

opened briefly in 1940 and then deferred until 1946 because of court actions. It covered the period between 1939 and 1947.

EFFECTS CONTINUE

However, the commissioner said that—despite some 1947 modifications in licence controls last year—the combine effects are still carrying through. Hence price competition, he said, is still "minimized."

McGregor made no formal finding against retailers, though he deprecated their part in the early resentment in 1939, he noted, they had generally accepted the price-fixing scheme because of its promise of profits.

The giant of the Canadian ring, he found, was the American Optical company of Southbridge, Mass. It had "substantially controlled" the trade in Canada against the interests of the public and with its Canadian subsidiary, Consolidated Optical Company of Toronto (now known as the American Optical Company Canada, Ltd.).

FIRMS ARE NAMED

He named American Optical, Mumtaz Ful-Vue Corp. of Southbridge, Mass., and 26 Canadian wholesalers as having participated in one or another of the various combines.

These firms were:

Imperial Optical Co., Toronto, and three associated firms; National Optical Co., Montreal; Imperial Optical Co. (New Brunswick), and Imperial Optical of Nova Scotia, Ltd.

Bausch and Lomb Optical Co. Ltd. of Toronto, Canadian subsidiary of Bausch and Lomb Optical Co., Rochester, N.Y.

Boyes Optical Co., Charlottetown (inactive after 1942).

George F. Brodie Optical Supplies, Toronto (since March, 1946 only).

Buller Optical Co., Montreal.

Canadian Optical Service Co., Quebec.

Chapman Optical Co., Quebec.

Commercial Optical Co., Montreal (including branches in Toronto, Ottawa and Three Rivers, Que.).

Garnett Optical Co., Halifax (since 1945).

General Optical Co., Montreal (since 1945).

H. & M. Optical Co., Toronto.

Edmonton Optical Laboratory, Vancouver (with branches at New Westminster, B.C., Calgary and Edmonton).

Kahn Optical Co., Toronto (with branches in Montreal, Kitchener, Ont., London, Ont., Winnipeg and Calgary).

K. & W. Optical Co., Kitchener, Ont.

L'Optique Laviolette, Three Rivers, Que.

Maritime Optical Co., Quebec.

Monarch Optical Manufacturers, Ltd., Toronto.

Premier Optical Co., Saskatoon, formerly Prince Albert, Saskatchewan, where business was started in 1944).

Sterling Optical Co., Toronto.

Terms and conditions of sale were laid down in Great Britain, the commissioner said.

McGregor reported that the arrangements were strictly enforced and action by court injunction or license cancellation was threatened when that was considered necessary to have prices kept up. Since wholesalers and retailers realized that cancellation would put them out of business, Mr. McGregor said, the mere threat was generally enough to keep them in line.

**\$175,000 Fire**

ANCHORAGE, Alaska, June 2.—(AP)—Fire swept through the main business district of Palmer, in the Matanuska valley, Monday night, causing damage estimated officially at \$175,000.

Palmer is the valley's main settlement.

### AIRPORT HIT BY JOVIAN BOLT

Lightning struck the very centre of Edmonton's Municipal Airport landing field Tuesday but did no damage.

The random Jovian bolt "bored" a neat round hole in the ground six feet deep and six inches in diameter.

The hole was taken off from a runway close by when the lightning struck but proceeded to a nearby area.

The same storm caused trouble for the city electric light department when two light poles and circuits went out in Jasper Place and Calder.

Damage was soon repaired.

## Y's Men Elect New Officers

New officers for the Edmonton Y's Men's Club were elected at a meeting of the Club held Tuesday night in the YMCA.

Harold Banks was elected executive vice-president, Duncan Campbell, program vice-president, and Fred Delay, service vice-president.

Corresponding secretary elected was Stuart Harris and recording secretary, Wilfred Bindon.

Treasurer elected was Roy Leard.

Four directors elected were Robert Fisk, Art Richards, Tom Baker and Ralph LeDrew.

At the next year, Gordon McClary, was elected at a Club meeting held three weeks ago.

The new officers will take over their duties on July 1.

Following the meeting, 12 carloads of members were taken on tour of the Imperial Oil refinery being erected east of Edmonton.

The tour was conducted by R. H. Sherwood, mechanical superintendent for the company in Edmonton.

EDMONTON BULLETIN, Wednesday, June 2, 1948 3

## Banker Says Shortage For Canadians Over

Except for housing, days of real scarcity for Canadians "seem to be over," L. G. Gillett, general manager for The Bank of Toronto said here today.

Mr. Gillett is paying his first official visit to bank branches in Western Canada since his appointment as general manager last January.

Although there is ample evidence that shortages of most commodities has been overcome, wages and materials remain high. This tends to keep prices high, Mr. Gillett said.

There has been increasingly greater buyer resistance, however, with goods remaining longer on store shelves, he observed.

Banking business continues generally good, with savings deposits still high although not increasing as fast as last year. Bank loans have fallen off as a result of government policy discouraging investments at this time.

As to the likelihood of a recession or depression, the bank manager said:

"Everybody seems to have been expecting a recession for the past two years. It didn't come last year. It will be better if we have a gradual slowdown than a sudden depression. We seem to be better prepared for a depression than ever before."

Mr. Gillett will inspect the new \$500,000 extension to the Bank of Toronto here, and confer with I. J. Hutton, manager of the Edmonton branch.

The general manager plans to remain in Edmonton until Saturday and will leave for Calgary. He is accompanied on his western tour by Mrs. Gillett.

### New Meat Ceiling Prices Improbable

OTTAWA, June 2.—(CP)—There is practically no chance that the cabinet will reimpose ceilings on meat prices, a government source indicated yesterday.

The government considered the question of meat ceilings nearly three months ago when it began to appear that the seasonal rise in beef prices would probably be sharp this year.

Exposures of ceilings failed to win out there. It has since been indicated that they now consider that the time when ceilings could have been imposed effectively has passed.

The current rise in beef prices will continue until July, according to packing company officials. The trend is expected to be reversed then, as grass-fed cattle reach the market in western Canada.

### Red Cross Seek Missing Woman

Red Cross officials in Edmonton are inquiring for the whereabouts of Lydia Hoffman, who was born in Germany about 1904.

She came to Canada in 1912 or 1913 and lived in the Edmonton area.

Enquirer is a relative in Germany, Martha Schflurke.

### 1,000 New Members In May

## Larger Quarters Needed As AMA Grows Rapidly

Extension of the Alberta Motor Association's present offices at 109 avenue and 100 street was recommended at a meeting of the Association executive held Tuesday in the Edmonton Club.

Plans for the extension are still incomplete and will depend on an extended lease from the city on property now occupied by the Association's offices.

Plans for the purchase of a permanent site and construction of a suitable building were considered and rejected because of high building costs.

Reports on the successful oper-

ation of the AMA Motorcycle Safety Patrol were given the meeting by Walter Crawford director of the service.

Mr. Crawford said the four patrols had spent 270 hours touring the highways during the last ten days of May and had rendered assistance to motorists in 117 instances.

Members of the patrols are shortly to be given police authority, he added.

A bus in Association membership was reported. During May there were 1,000 new regular members and 138 new associate members, an increase of 172 over new memberships for the same month a year ago.

Total membership in the Association now stands at 15,704.

With respect to safety conditions at the north end of the 109 street subway, the Association was advised that the city is presently investigating more adequate means of lighting which would eliminate the traffic hazard of the bright sunlight.

Safety Committee Chairman Walter A. Crawford was instructed to proceed with arrangements for the annual dinner for the boys and girls of the School Safety Patrol.

## Lovely Cool VESTEES

For Tailored and Dressmaker Suits

At 1.95 to 4.95

Cool, Summerly vestees to freshen up the front of your tailored or dressmaker suit.

• Shown in crepe, sheer, organza, lace, Plain or with lace or eyelet embroidery trim.

• Plain round necks, Peter Pan collar, tailored collars. Some have bows, jabots, plaited or fagotted fronts. Royal, grey, pink, ecru, blue, red, turquoise, moss green, white, black.

Price 1.95 to 4.95

Children's Fine Organadies PINAFORES

Picture little miss in one of these sheer organady pinafores in blue and white or red and white! They button down the back and have frills over shoulders. White tops and check skirts. Sizes 3 to 6.

Priced at 2.95

(Children's Annex—2nd Floor)

# A Fine Public Service

It is difficult to think and speak of the Rt. Hon. J. L. Isley as a man whose public career is ended even though he has announced his retirement from the federal cabinet at the end of June.

Mr. Isley has become so much a part of Canada's national life in the various capacities in which he served at Ottawa that it seems strange he should seek private life at a moment when his political stock was never higher and when he might, with some chance of success, aspire to the prime ministership of Canada.

But Mr. Isley is an unusual man. If he were not an unusual man he could not have taken a vital part in Canada's government during the onerous years of war. And perhaps it is this very quality of individuality that persuades him to leave politics at a time when lesser men would be applying themselves most diligently to reaping the fruits of political planting.

However the present task is not so

much to analyze Mr. Isley's reasons for quitting public life at the early age of 54 as to estimate the value of his past services to the country.

There can be no doubt of his administrative skill. His organization of the several war loans, his creation of the War-time Prices and Trade Board and his handling of the many other phases of war finance were accomplished with a deft and sure touch.

But Mr. Isley's contribution to the war effort was a greater and more subtle than any of these.

It was, to a great extent, a moral contribution and it consisted of the ability to create public confidence—a capacity that grew out of his own towering sincerity.

Mr. Isley has been an outstanding Canadian. He has performed a fine public service. And if his inclination now leads him to private life the good wishes of millions of Canadians will go with him.

# The Red Pose of Martyrdom

Paul Robeson, noted concert singer, has joined the starchy-eyed ranks of left wing martyrs with a refusal to testify before a U.S. senatorial committee as to whether he is or is not a Communist.

Mr. Robeson argues that an effort to make him disclose his political opinions is a violation of the principle of the secret ballot. He appears to glory in the fact that "nineteen leading Americans are going to jail for refusing to answer that question and if necessary I will join them."

This passionate devotion to the principle of the secret ballot comes with strange grace from members of a party whose affiliates have just conducted an election in Czechoslovakia where the secret ballot was a bad and tragic joke.

It is true that under the democratic voting system the nature of the ballot cast

is held secret. But it is absurd to presume that the political opinions of voters must or can be kept in dark secrecy. Among normal people there are a dozen ways of determining a man's political bias. His conversation gives a clue; his membership in political clubs or organizations is significant. And finally, few honest persons want to make a secret of it anyway.

It is obvious, then, that all this high-minded hokum about preserving the sanctity of the secret ballot is so much pretentious eyewash.

The secret ballot is democracy's expression of a belief in the sovereign right of individuality. It is odd that those who are most zealous in maintaining the sanctity of the secret ballot practise a philosophy which is intent on putting an end to individuality.

# Waxing and Waning Stars

One of the circumstances that build an American presidential election into an event of high dramatic significance is the manner in which the political stars of the candidates for nomination wax and wane in the campaign sky.

For instance, Harold Stassen who appeared a few weeks ago to be unbeatable in the Republican camp has received a serious setback through his defeat in the Oregon primaries. His extraordinary zeal in campaigning is said to have estranged party managers without winning compensating rank and file support.

Dewey, on the other hand, is at loggerheads with several powerful factions in the party.

Taft, who is probably the most capable Republican in the field, does not go down well with audiences who demand something more colorful and dynamic than the scholarly statesman from Ohio

is able to give them.

The pertinent fact is that of the three active contenders for the nomination, none can come to the convention having proved himself to be the decided choice of the great majority of Republican voters.

This means that the choice will have to be made by an agreement among the leading delegates and party managers.

In such compromise selections, the choice usually falls upon a man, not because he pleases everybody, but because he has offended nobody.

Under these circumstances, observers are looking anxiously towards Vandenberg with whom no Republican faction has any quarrel and who might be expected to garner in a smattering of extreme right wing Democrats.

The betting at the moment, which may change next week, is Vandenberg for president. Dewey for vice-president.

By Elmore Philpott

# State of Oklahoma Has Everything, Mostly Oil

OKLAHOMA CITY, Okla.—Even if you were blind, you would know you were in the real West when you get to this state—made famous by the name of its name. For here in the real West they go in for Western things in a big way. In fact, you can't go into any part of the state without seeing a big side arm car, equipped with inevitable juke box, without hearing the real hot music of this country. PHILPOTT

The cowboy song is the cowboy song. The same principle applies to movies. Here in the prairie belt the folks love western movies. You can see more real "westerns" in these parts in a single month than you can any place else in a year.

But don't get the idea they are old-fashioned in everything. We saw one farmer today driving his tractor to plow a wonderful-looking field. We laughed to note he was all equipped with a sun umbrella.

Believe me, he needed it, too. For while it is true, as in the words of the Oklahoma song hit, that "the wind blows the sand down the plain," the song-writer forgot to add that at this time of year it is as hot as a breath from hades.

Bore Down Four Miles

So we passed up the marvelous exhibits at the International Children's Show at Tulsa. We did get one eye. The old men show have a giant figure that can pierce into the belly of the earth for four miles. That is, they expect to be bringing in oil from depths three times deeper than they had set reached. They are chuckling here because they "brought in" the deepest well yet

opened in Wyoming last Saturday in Wyoming.

This state just about has everything. It is most beautiful than most any other part of the prairie West—including Canadian prairie—because Nature gave Oklahoma such grand trees.

Much of the soil, by the way, is literally as red as brick—unburned brick. It is so red I am surprised that the U.S. Army Committee at Washington hasn't got around to probing into its politics.

Less Feeling Against Indians

Oil has made many people here fabulously rich. Indians are a smart lot around these parts. We saw one Indian today who was more successful than they did in most of the continent. So when the oil age began, and

many amazing wells gushed up in Oklahoma, the Indian man had to hand over something more valuable than the glass beads of his old paper with which he used to dispose the original owners of most of this country.

One cowboy song I heard today said the hero was going to his "okay-doo-oh-oh"—a little Indian girl said she was going to "help her spend her money."

There is less white prejudice here against Indians than in any other part of America I have yet struck.

Obviously a considerable percentage of the "white" people here have some good Indian blood in them. I say "good" because they are producing really superior specimens in the Cherokee of this state—among others, the late Will Rogers.

They have many memorials hereabouts to Willa Wister. But I don't know if they caught much of the Rogers tolerance and kindness.

Yesterday, right in this city from which we are writing, the Clive Auditorium was paid for in advance, all regulations had been met. The speaker was to be Senator Glen Taylor, who is running for vice-president on the Wallace ticket.

The floor was clamped down tight because the New Party refused to agree to respect the "law" of white supremacy and race segregation.

All this would be really funny in the state which boasts of Will Rogers in the Mayflower. But the Rogers of the American Revolution? Sure, your ancestors came over in the Mayflower. But your ancestors were down there on the shore watching the boat come in.

# Smiles

"Jim," he said, as he settled down for his afternoon smoke. "I've got a lot of things I want to talk about to you."

"Good," he said. "I'm glad to hear it. Usually you want to talk to me about a lot of things you haven't got."

# LETTERS TO THE EDITOR

## Fantastic Inaccuracy

Editor, Bulletin—I think it is only right to draw the attention of all Alberta citizens to an erroneous statement given by J. T. Douglas, minister of highways in the CCF government of Saskatchewan and published in the official Saskatchewan News which is issued by the CCF government and which costs the taxpayers of Saskatchewan over \$40,000 per year.

This item quotes Mr. Douglas as saying, "The province of Saskatchewan has travelled 4,000 miles since 1944—a greater mileage than the entire Alberta system."

Apparently the official organ of the CCF in Alberta thought so highly of this inaccuracy that they reprinted it in the issue of May 15, page 4. "The Third Column."

Now let us see what the actual figures show.

Number of miles of gravelled roads in Alberta 10,554. This is per cent more than the Saskatchewan statement gives.

Note: In 1944 Alberta had 6,260 miles of surfaced highway. To date Alberta has 10,554 miles, therefore the mileage surfaced since 1944 in Alberta is 4,294.

The claim made that the CCF in Saskatchewan has reduced the Provincial debt by 72 millions is also a misrepresentation. What actually happened was the Dominion Government cancelled the Treasury notes owed by the Saskatchewan Government to the extent of 36 millions and cancelled all interest on another 30 millions, replacing them with new interest free.

These figures can be found in Hansard, July 11, 1947, page 5,549. Such fantastic inaccuracies as are being made repeatedly by the CCF officials in the press and the radio deserve all reliance in their statements.

## Views On Palestine

Editor, Bulletin—I have been following with interest letters which have appeared on Palestine in The Bulletin and have come across some facts which I believe will help clarify the issue.

The following excerpts are taken from a letter written by Mr. Benjamin H. Freedman to the National Economic Council, Inc., commenting on a letter submitted to the Council by Mr. Menahem Sim. This letter appeared in Economic Council Letter No. 181, Dec. 1947.

"Let me assure Mr. Sim that I intended no 'innuendo' in denouncing the American Jewish supporters of political Zionism are guilty of un-American activities."

The letter for which Mr. Sim was held responsible was written by Dr. Francis Landau and Smuts lost the prime ministership which he held since 1939. He also was defeated in his own constituency and so was deprived of a seat in the House of Commons.

There was speculation that Smuts might quit politics and retire to his farm in the Mayflower. But he was not. He was elected for two more terms.

## Churchill Was Leading Critic

Mr. Churchill, in 1939, was the leading critic of the Chamberlain policy. He fulminated then, in the house of commons, and he was warning him against assuming the possibility of a Russo-British-French alliance when the Russians proposed it on April 16, 1939.

But the secret German documents prove that simultaneously with Russia's approach to Britain, she was approaching Germany, playing the same game on either. This on April 17, the Russian ambassador to Berlin called at the German foreign office and asserted that "ideological differences had hardly influenced the Russo-Italian relationship, and need not prove a stumbling block to Germany either."

We cannot think that our civilization has reached its final form. The world is still in the process of development. World wars and another being agitated in our own lifetime.

We are glad that force is not needed in Canada since we have the vote in order to change the constitution. But as long as there is life in the tree there is growth and the bark must be removed and the tree must be able to grow.

When there is no longer growth the tree must be cut down. The land is changed and the laws of the land are changed. Let us not be afraid of new ideas. Let us not be afraid of new ideas. Let us not be afraid of new ideas.

# Rewrite History Into Propaganda

Perhaps the worst thing about totalitarian states is their utter disregard for truth. Yet whatever else a nation may have or lack, none is civilized whose statements base their claims on wanton lies.

On May 26th, the Soviet government published documents "to show that the British government as late as August, 1938, offered Hitler a free hand in Europe in exchange for a British-German alliance."

The documents purport to show that the German ambassador in London was informed in 1939 that the British would "scrap their guarantees to Poland and other nations if a British-German treaty was achieved."

The Associated Press report from Moscow states that the state who approached whom, according to these purported documents, nor what the British conditions for a treaty were. There were attempts on the part of representative of at least one neutral to get the British and Germans together via Goering in June, 1939.

But a condition of the British was that the Germans evacuate all Czechoslovakia except the Sudeten. This was rejected. That Britain ever offered Hitler a free hand in Europe beyond the terms of Munich is absolutely denied by the captured documents of the German foreign office, the testimony in the Nuremberg trials, and the chronology of events.

# Pope Pius Issues Appeal to World

## Asks "Wavering Between Peace, War" Be Overcome

VATICAN CITY, June 2.—(BUP)—Pope Pius appealed to the world today to overcome the post-war "wavering between peace and war" and welcomed the possibility of a truce in Palestine as "the dawn of hope."

In a 25-minute speech to the Sacred College of Cardinals on his name day, the traditional date for one of his two most important annual addresses, the 72-year-old pontiff made two main points.

He warned Catholics against "movements which effectively attempt to unchristianize all public and private life" and told them the choice of "with Christ or against Christ" could not be solved by "pernicious duplicity."

He praised efforts to achieve a truce in Palestine, saying that "the American bird" since its original, though provisional, truce announced this very night must be habitat was North America.

welcomed with a sigh of relief as the dawn of hope. The pontiff also urged unceasing efforts and salvation from what he described as a "strange illness" wavering between peace and war.

"It is 10 years that we have governed under the gust of the tempest, under the furious blows of the hurricane, the ship of Peter, choice of 'with Christ or against Christ' could not be solved by 'pernicious duplicity.'"

The Turks call the turkey "the American bird" since its original, though provisional, truce announced this very night must be habitat was North America.

# Four-Year Sentence Imposed In Alleged White Slave Ring

VANCOUVER, June 2.—(CP)—Police investigation of an alleged white slave ring yesterday resulted in imposition of a four-year penitentiary term on Andrew Lofka, 36, of Vancouver. He was convicted by Magistrate Mackenzie Matheson on three charges of contributing to juvenile delinquency.

Sentences of two years were imposed on each of two to six consecutive and the third concurrently. The charges involved three teen-aged girls.

A second man, said to be involved in the same ring, faces trial on similar charges.

# Stassen Wants U.S. Navy In Palestine

PHILADELPHIA, June 2.—(AP)—Harold Stassen last night urged that the United States send a major portion of its navy to Palestine. The former governor of Minnesota recommended the move "to carry out policy directions of the United Nations and to enforce a request for a truce."

# MEN SHOULD WEAR BATHING CAPS, TOO!

UXBRIDGE, Middlesex, England, June 2.—(CP)—Girl swimmers, told they must wear bathing caps at Uxbridge swimming pool, retorted: "Then men should have to wear them, too."

Pool superintendent A. C. Price said he had re-introduced the pre-war bathing cap regulation for hygienic reasons. It was relaxed during the war because of the shortage of bathing caps.

"Men swimmers objected to getting a mouthful of feminine hair while swimming in the pool," he said.

"Hygiene, fiddleticks!" said typist Beryl Jackson, 19. "What about all that greasy stuff men put on their hair?"

# Air Force Helps To Combat Pests

PRINCE ALBERT, Sask., June 2.—(CP)—Reminiscence of a wartime bombing raid, a specially equipped RCAF Dakota yesterday sprayed the North Saskatchewan river in an effort to destroy larvae of the cattle-killing Blackfly.

Similar tests have been made near Saskatoon.

# Credit Men Meet

CALGARY, June 2.—(CP)—Approximately 1,100 Canadian and United States delegates are expected to attend the National Retail Credit conference to be held at Banff, June 8 to 10. Group and business meetings, general sessions, election of new directors and annual reports will feature the conference.

# Aorangi Returns To Pacific Service Next September

VANCOUVER, June 2.—(CP)—The 17,500-ton motorship Aorangi, last seen here in 1941, will re-open passenger and freight service between Canada and New Zealand, Australia when she sails from Vancouver on her first post-war voyage Sept. 1. It was announced today by P. B. Cooke, general manager of the Canadian-Australian Line. Thereafter the motorship will make regular voyages from Vancouver-Victoria every nine weeks and will bring back into operation the "All Red" route from the west coast of Canada to the Dominions "down under." At present the objective is completing reconversion of shipyards in Sydney, Australia, after serving with the British ministry of transport during the war.

# Calgary Transit Inspector Retires

CALGARY, June 2.—(CP)—W. J. (Bill) Halpen, chief inspector of the Calgary transit system, has retired after 37 years service with the company. His retirement was effective Monday.

# 100,000 New Homes Predicted for 1948

PORT ARTHUR, June 2.—(CP)—A prediction that the dominion government's plan to foster construction of 100,000 new homes in Canada during 1948 will be achieved was made here last night by Trade Minister Howe. Mr. Howe was addressing a meeting on behalf of H. H. Styfke, Liberal party candidate for Port Arthur in the forthcoming Ontario elections.

Termining himself a representative of the only government in Canada building homes, Howe said federal housing plans are keeping up to schedule. Last year the objective was 80,000 homes and 70,000 were built. This year, with a good backlog of unfinished dwellings as a start, housing was off to a good start and was maintaining a good pace.

The trade minister, who said this would be his only election address in the Ontario campaign, criticized both the Progressive Conservative and CCF parties. He accused Premier Dewart of making the Ontario hydro "a political arm" of the government. He warned of the threat of leftist elements in the CCF if that party were elected.

Howe also tweaked Premier Dewart for failing to reach agreement with the Dominion on taxation matters. "I am satisfied that business and revenues of the province would be substantially better if the Dominion proposal had been accepted."

PORT FRANCIS, Ont.—(CP)—More than 1,000 border citizens headed by representatives of various organizations were on hand here for lighting up ceremonies of a new junior chamber of commerce "welcome to Canada" archway.

# THURSDAY AT WOODWARD'S

Store Hours: 9:30 a.m. to 5:30 p.m.

# Mohr ON SPORT

By STAN MOHR, Editor

## Flyers And Bosses Feudin'?

It might amaze hockey fans who watched last month while the Exhibition Association and their Flyers went lovingly hand in hand down the Allan Cup trail to know that a determined tug-of-war is going on behind the scenes.

At one end of the rope are Charlie Wilson and his Exhibition associates. At the other, those favorite puck-chasing sons who brought the city its first success in Cup history.

Basis for the tug-of-war is the last of four bonuses, this one for \$100, which each player received as the season came to an official end.

This particular C-note, as Bob Price, president of the Exhibition Association disclosed in public—brought to \$500 in all the playoff sugar (their salaries went right on, of course) received by each of the Flyers.

The Canadian champions, with their victories freshly in mind, had been built up (largely by themselves, we understand) to expect that the 'S sign' would glow more brightly in those wind-up pay pokes.

On the other hand Mr. Wilson and his associates, well aware of what it cost to operate the Flyers (and the team certainly went first class all the way, appearing not to lack for anything), felt they had done alright by their much wine-and-dined employees.

## Will They All Be Back?

So the matter has stood for two weeks while the storm clouds gathered. We have no business to intrude in the dispute, as such.

However, in that it may affect the make-up of next season's team it is worth keeping an eye on. Certain members of the Flyers hockey committee have expressed themselves as confident that 'the team will be largely intact' when the Northern Canada Loop gets underway in the fall.

They don't expect to lose Al Rollins to Chicago—or Kansas City. The feeling is that Doug Anderson, Bud MacPherson and 'Bing' Merluk, slated to report to Montreal Canadiens, will be back.

Harvey (Pug) Young to retire? Not likely. When the geese start winging their way south the burly rear-guard will get the same urge. Only he'll be pointing for southern Alberta and the usual fun at the expense of Calgary Stampede.

Johnny Black seems pretty well committed to donning Cleveland Baron finery. But there, too, there's many a slip 'tween the amateur cup and the professional lip. It well might be that the Kimmata-Maher-Black line will continue to spread far through the WCHL.

On this convenient basis of reasoning there seems little chance of losing many, or any, of the players.

## Frank Currie, Alias 'Dr. Anthony'

No one can blame the hockey committee—headed by Gordon McDonald—for being optimistic. But it's just possible that if the aforementioned tug-of-war isn't shortly called off along amiable lines it will do more to thin the Flyers roster than the depredations of Chicago, Montreal and Cleveland agents have done, or may do.

Of course chairman McDonald and his aides are not without a case on or two in this 'cold war.' Most of the players are well settled here. They don't really want to go elsewhere.

On the other hand there is the undeniable interest being shown by the pros in Rollins, Merluk, Anderson, MacPherson and Black as well members of an Allan Cup winner generally have several offers to do their playing elsewhere.

In the middle, of course, is coach Frank Currie. Throughout the season, as he guided his squad to the pinnacle of amateur hockey (Dr. W. G. Hardy recently was quoted to the effect that 'amateurs play for the love of the sport'), Currie established a great reputation as a leader whose big forte was creating and maintaining harmony in the ranks.

It might be that coach Currie is face to face with his greatest hour.

HEAVING HO with a throw of 34 feet, 10 inches to win the shotput in the Universities Athletic Union championships at Mott Park, Surrey, Eng., is Elsie White, who bettered the women's previous record of 31 feet, eight inches.

## Legionnaires, Morton Maids Lead Fastball

Legionnaires and Morton lead the fastball packs in the Kingston meadows these times. The Legion crew are unbeaten in three games on the men's side, while Morton boast three and one record in the ladies' field.

And in the first batting average released by official scorer Clara Hollingsworth Tuesday, George Peltier of Morton leads all hitters. He has swatted 307 in three games.

Bob Myers, also of Morton, is runner-up to Peltier with a .333 mark. Reiss Macleish and Bill Feeney of Legionnaires, and Phil Meyers of Morton, are the only other batsmen who have .300 or better averages in ten tries this season.

Joyce Comrie, a Morton maid, sets a wicked .500 pace among the ladies. Stella Noel of South Side is the only other female in the 300 group with a .307 average.

## Calling Harney!

Hear ye, hear ye! If Laurel Harney, manager of Cubs, will call at the BULLETIN sports department, he can pick up a letter that came in our care.

## Stewart Shines In Fireman Win

Paced by hurler Glen Stewart who belted two rounders, Fire Department of the Civic Men's Fastball League blasted Utilities 14-5 in a five-inning game played at Clarke Stadium Tuesday evening.

George Tutton and Russell Ads head also banged out homers for the winners.

# Yankee M

Score by Innings: 001 000 021-4 1 1 Singers (Kilgus and Nault); Cowan and Sheekter.

Yom Kippur, the day of atonement, is the holiest day of the Jewish year.

## The Rains Came In Juvenile Test

North Edmonton Nine Leads Westmount 15-1 in 4 Innings

The rains came to Clarke Stadium Tuesday to wash out the juvenile baseball inaugural after four innings. At the time North Edmonton led Westmount by a 15-1 score.

So they'll pull another league opener at the South Side Athletic Grounds Wednesday night. Jim Side Arrows tangle with Cloverdale EAC in this encounter at 6:30 p.m. Benny Kilguspoon's North Edmonton nine possessed power at the plate, raking pitchers Harry Brody and Jim Horn for 20 and 11 hits.

North Edmonton scored six in the first inning, five in the second, three in the third, and one in the fourth. Andy Gillies' Westmounters tallied their lone run in the fourth.

Norman (Red) Sarafen hurled five-hit ball for the winners. The tall, well-built right-hander yielded one extra base knock, that to Jim McNabb in the fourth. Otherwise he was in control of the proceedings.

SHOW PROMISE Brody and Horn appeared nervous and should develop into fine juvenile moundmen on their own. Young Jim is the son of Phil Horn, former junior baseball commissioner and an outfielder-first baseman in the early thirties.

The Westmount receiver, Sid Berman, was hit by a line drive in game in defeat. He has a strong arm to second base.

LINE-UPS Kingsdown's for the following: Gordon Dumbrowski, c; Walt Lockhart, 1b; Bill Duszak 2b; Nick Mandrak 3b; Don Clark, ss; Alex Sles, lf; John Kerkowak, rf; Ross Hosak, rf; and Sarafen, p. Other North Edmonton hurlers include Bruce Noon and Jimmy Mazurenko.

Westmount lined up with Hercus, c; Jim McNabb, 1b; Mike Glover, 2b; Jim Campbell, 3b; Bill Wagner, ss; Bob Wright, lf; Jim Fraser, lf; John Dryden, rf; Horn and Brody on the mound. Southpaw Jim Kinnear completes the Westmount hurling corps.

## Law Prevents Mat Fiasco

SUDBURY, Ont. June 2.—(CP)—"Baby Face Helen" was not permitted to have "Ruff House Kelly" out of a local wrestling ring Tuesday night.

Because women wrestlers are barred in Ontario, the provincial athletic commission ordered the promoters to cancel their scheduled bouts.

## Gordon Watt Belts 2 Round-Trippers

The rains came to West Kingsway diamond Tuesday night, but not before Gordie Watt and the Fire Department had belted Mar shall-Weils for a long-sided 12-1 victory in an intermediate Men's Fastball League game.

The Flyer captain paced the Firemen with the stick, slugging a two-run homer in the third and a three-bagger in the sixth. Pete Danilowich also clouted a circuit blow for the winners.

Line Score:			
Marshall-Weils	000	001	1 2 4
Fire	204	248	12 3

McNicol, Carney (B) and Osbaldo, McGregor and Grossman.

## Didsburg Golfers Elect Enbank

DIDSBURG, June 2.—Bob Enbank was elected president of the Didsburg Golf Club at a re-organization meeting recently.

Sam Krueger was chosen first vice-president; Bert Prevost second vice-president, and George Law secretary.

Bob Enbank, Paul Brenton, John Law, Fred Evans were named to the grounds committee, while J. W. Wordie and Bert Prevost were elected in the handicaps committee. In charge of the greens are Frank Kaufman and Bert Prevost, while Bert Prevost and Art Heiber will be the handicaps adjusters.

## Tennis Meeting

Westmount Tennis Club will hold a meeting in the Y Hall Wednesday at 8 p.m. All those interested are requested to attend.

## Yankee Missions 90-Foot Chip Shot in British Golf

ST. ANNE'S-ON-THE-SEA, Lancs., Eng., June 2.—(AP)—Dorothy Kieley, the former United States ferry pilot, sank a 90-foot chip shot from the five-inch rough on the edge of a trap Tuesday to advance to the quarter-finals of the British women's golf tournament.

The shot virtually assured Miss Kieley of her one-up triumph and put her in the round of eight alongside Louise Suggs and Dorothy Kirby, both of Atlanta, Ga. MASTER STROKE ON 17TH Miss Kieley's master stroke came on the 17th hole of the 6,600-yard Royal Lytham and St.

## Philadelphia Club to Seek NHL Franchise

MONTREAL, June 2.—(CP)—Confronted with prospects of the hottest early-summer weather in Montreal, owners, managers and other representatives of the six National Hockey League clubs made ready Tuesday night for their annual two-day meeting.

The early arrivals were reluctant as to what the private deliberations will concern, but it is believed one of the outstanding pieces of business will be a Philadelphia application for a league franchise.

Len Peto, representing Philadelphia interests, will present Philadelphia's bid for a second fling at major league hockey. Back in the 1930-37 season the old Philadelphia Quakers operated for just that one campaign.

Philadelphia is seeking the old Montreal Maroon franchise, held by the Canadian arena company which operates Montreal Canadiens.

Peto is expected to urge that progress of his group in Philadelphia not be reached at the point where the league should agree to his taking over the Maroon franchise.

Rule changes are likely to come in for consideration, but just what they would entail or by whom they would be proposed remained part of the pre-meeting mystery.

If any intra-league player deals are in the making they haven't been made known. But arrival of representatives of the American Hockey League and United States Hockey League clubs indicated some shuffling about of player material is in the making.

## St. Pats Take On Cloverdale Eleven Tonight

Cloverdale and Oliver St. Pats, who have yet to taste the flavor of victory in the new Edmonton and District Football League, will clash at the Civic Stadium Wednesday night at 7 p.m.

Cloverdale met its Waterloo at the hands of the strong North Side Legion players, while both the junior Maple Leafs and RAF took the measure of the Pats. However, the losers in each case offered stubborn opposition.

Secretary George C. Hall announced that the following players would represent the St. Pats: Russell, Britt, Laurie, Wade, Johnson, Turpin, James, McInerney, Hoskins and Mason. Reserves, Davidson and Magistat.

## Main Office Tops Letter Carriers

Main Office exploded for three runs in the top of the fifth inning to whip Letter Carriers Depot No. 1, 7-3, in a six inning Post Office fastball game played Tuesday night at Diamond Park.

The game was called, due to rain at the end of the sixth. Place was the big bat for the victors, belting a two-run homer in the third inning.

Line Score:			
Main Office	112	000	7 3 6
Letter Carriers	000	000	3 1 9

Elke and Coldwell; Kordyback and McLeod.

## Garneau Bowling

Following is Garneau Lawn Bowling draws for Thursday and Friday.

At 5 p.m. Thursday—Cox vs. Pritchard, Shields vs. Rothmeyer; Lord vs. McIlveney.

At 6 p.m. Friday—Spencer vs. Kaufman; Saunders vs. Law; Crawford vs. Seller; Stunshaw vs. Gault; Robertson vs. Woodhouse.

The University of Havana was founded in 1728.

## NO ALL-YANK FINAL

The defeat of Mrs. Vane eliminated the last American from the top bracket and precluded the possibility of an all-American final Thursday. The title was taken to the U.S. last year for the first time in 10 years. Babe Didrikson Zaharias of Denver.

In Wednesday morning's quarter-final round Miss Kieley will play Mrs. Joan Gee of England. The 18-hole semi-final will be played Wednesday afternoon.

Those who reached the quarter-finals in the upper bracket, in addition to Mrs. Helen and Mrs. Gee were Maureen Ruttle of England and Miss Donald.

Ask to see the new, improved RICHARD HUDNUT HOME PERMANENT at your cosmetic counter. Remember, any hair that will take a permanent will be lovelier with a RICHARD HUDNUT HOME PERMANENT!

Price \$3.25; refills without rods, \$1.75.

Hudson's Bay Company

INCORPORATED 2<sup>ND</sup> MAY 1870.

## Tight Pitching Duel Featured at Kingsway

Rain doused Kingsway Park Tuesday night, but not before Ted Kitching and Stu Cowan hooked up in the tightest pitching duel of the 1948 fastball season.

In the end Kelbaugh and Precision Machine clipped Cowan of Henry Singers 4-1. Kelbaugh granted two hits and Cowan, the most valuable player in senior men's ranks in 1946, was touched for four.

Precision hopped ahead 1-0 in the third. Ben Hoffmeister led off with a double to left and fourth the bags after first sacker Jim Fleming missed up a peg from shortstop Stu McCaskill.

Through to the seventh the Precision margin held. Then Singers tied the score via Ken Johannsen's triple through centre and a wild pitch.

Two runs in the eighth won it all for Kelbaugh. George Alex and Hoffmeister walked and advanced to second and third respectively on a double steal. That set the props for Roy Chobotuk, who hadn't hit a lick in three

tries, to slash a two-run single to the right field garden.

For gut measure Precision added one more in the ninth on Bob Nault's double and a single by Ted Tadeson.

Additional talent joining the Singers this week includes Frank Currie and Al Rollins of Allan Cup fame, and Neil Colville, Colville, a leading light with New York Rangers of the NHL, expects to be in Edmonton for a month and will play with the clothiers during that time.

Score by Innings: 001 000 021-4 1 1 Singers (Kilgus and Nault); Cowan and Sheekter.

Yom Kippur, the day of atonement, is the holiest day of the Jewish year.

## ALL IS FORGIVEN FOR RAY NEILSEN

It was learned Tuesday that jockey Ray Nielsen, set down by Judge George Schilling for an unsatisfactory ride during the August, 1946 meeting at the Exhibition grounds, has been re-instated.

The rider, who left for Calgary late in the day, proffered the information. In explaining that his exile was at an end Nielsen said that he expected to have everything ship shape in time to accept mounts at the Winnipeg meet, commencing June 18.

During his layoff Nielsen had no problem with increasing poundage. He weighs 111 pounds at the moment, figures he can "do 109" by the time the curtain goes up in the Manitoba capital.

Some years ago Nielsen rode for Alf G. Tarn, famed U.S. owner.

## 2 to 1 Are Against Oleo in Debate

Liberal Members Against  
Tory in Favor in Commons

By George Kitchen  
OTTAWA, June 2.—(CP)—It was two to one against oleomargarine in the commons last night.  
Two liberal members spoke against it while one Progressive Conservative spoke for it as the chamber again debated second reading of a private bill, introduced by James Sinclair (L.-Vancouver North), which would lift the long-standing ban on the contentious butter substitute.

## Malan Forms S.A. Cabinet

PRETORIA, June 2.—(CP)—Premier-designate Daniel Malan, leader of the victorious Nationalist party in the South African general election, agreed last night to form a new government.  
Malan sent a message to the former prime minister, Field Marshal Jan Smuts, assuring him that all arrangements made for his trip to Britain and Holland must continue as before.  
Smuts was to have flown in the premier's official plane. The field marshal, whose United Party was defeated in the election, is due in London Sunday on his way to Cambridge where he is to be installed as chancellor of the university June 10.  
Malan's message, which said all expenses for the visit would be paid by the Union government, was regarded in political circles as a tribute to Smuts and a mark of appreciation of the esteem in which he is held abroad.  
Smuts announced he has accepted the offer of the parliamentary seat of C. W. Clark, United Party member from Pretoria East. The seat will permit Smuts, who was defeated in his own constituency, to remain in parliament as leader of the opposition.

What Character  
does your handwriting  
Reveal?

Make your personality pay dividends! Cash in on your own natural assets. You may not know them but Andrienne, noted handwriting analyst can reveal hitherto dormant tendencies that will ensure your future success and happiness.

All you have to do is send twenty-five cents (in coin) and a sample of your handwriting to Andrienne, care of THE EDMONTON BULLETIN. With one stamped self-addressed envelope, you may send as many samples of handwriting as you wish, but be sure to enclose twenty-five cents for each sample of handwriting.

By ANDRIENNE

You can tell by the angle the writing slopes, the capacity of a writer's emotion and feeling—whether he is loving or unaffectionate, passionate or cold, demonstrative or self-controlled, faithful or fickle.

Last week I discussed the backward style of writing. Today I shall review the sloping, nearly vertical type of writing of which the script of Janet Gaynor is a good example.

This is a sample  
of my handwriting  
Janet Gaynor

Janet Gaynor has a strong, definite, decisive writing revealing a practical rather positive nature with an independent spirit and a strong determined will.

The single stroke in the lower loops, angular formations, firm "r" bars, reveal force, strength of character and much resistance. It would not be an easy task to change her opinion, once she has formulated a conclusion. She would be very distinct in her likes and dislikes and definite and even opinionated in her ideas. There is a tendency to be obstinate.

The sharp, pointed letters show her keen, alert, perceptive intelligence. She has indeed attained a practicability beyond the reach of many of her sex.

In the open formations of the "a's" and "o's", we have a frankness and directness which is more masculine than feminine.

She is an interesting example of feminine charm endowed with the more masculine qualities of deduction, firmness and resistance.

In the sloping nearly vertical slant, the writing inclines between vertical and 70 degrees.

This type of writer has excellent self-control and is well disciplined. He is naturally undemonstrative and does not give vent to his feelings.

## Group to Reconvene As Mediation Board

MONTREAL, June 2.—(CP)—Frank H. Hall, chairman of the negotiating committee representing 18 railway brotherhoods involved in a wage dispute with Canadian railways said yesterday the conciliation board which recommended a seven-cent pay increase would be reconvened as a mediation board.

As such it will inquire into the dispute in an attempt to avert a threatened strike.

## Switchman Badly Injured In Fall

CALGARY, June 2.—(CP)—Anthony Roberts, Canadian National Railway switchman and former Winnipeg boxer, remained in serious condition in hospital last night. Roberts suffered multiple injuries here yesterday when he apparently fell from the top of a moving box car on the main line out of the CNR yards.

Hospital authorities reported that his left arm was amputated below the elbow. It had been almost severed at the wrist by a freight car wheel. He also is suffering from possible skull fracture, a fracture of the left leg near the ankle and hip injuries.

There were no witnesses to the mishap.  
A brother, James Roberts resides here.

## Envoy Killed

KARACHI, Pakistan, June 2.—(AP)—P. T. Duncan, Pakistan's political agent in South Waziristan, was shot and killed Monday, it was announced by the foreign office yesterday. No details were given.

## Engineers Will Talk Irrigation

BANFF, Alta., June 2.—(CP)—A full discussion on irrigation problems in Canada is expected to highlight today's sessions of the 62nd annual convention of the Engineering Institute of Canada. The convention, which opened with registration of about 500 members at the Banff Springs hotel yesterday, will continue until Saturday night. A series of technical papers on engineering problems

are scheduled to be presented during the week.  
The institute is the only national organization in Canada representing all branches of the engineering profession. It has a membership of more than 10,000 restricted to professional engineers.

## Protest Sale

MONTREAL, June 2.—(CP)—The Canadian Seamen's Union (TLC) reported that 300 members at a meeting in Montreal had passed a resolution protesting sale of Canadian merchant vessels before replacements are available.

## N.B. Nominations To Close June 14

FREDERICTON, June 2.—(CP)—Nominations for the June 26 New Brunswick election will close at noon, June 14, it was announced in official proclamations issued today.  
Polling hours will be from 8 a.m. to 6 p.m. AST (5 a.m. to 3 p.m. MST).  
Declaration day is July 2.

## Alberta's Wheat Crop Lags As Seeding Below Normal

### MACKAY HEADS FOREST ASSN.

Donald A. Mackay was elected president of the Alberta Forest Products Association at the recent annual meeting in the Macdonald hotel.

He succeeds Hugh Miller in the post.

Guest speaker at the meeting was the Hon. C. E. Gorbart, minister of municipal affairs for Alberta.

He spoke on dominion-provincial plans for the eastern Rockies watershed and provincial policy towards development of natural resources by private organizations.

### Increase In Summerfallow Seen Due to Lateness

Total crop acreage in Alberta this year will be down by ten per cent from a year ago, it was learned from provincial department of agriculture officials Tuesday.

The amount of land to be summerfallowed will be increased by a similar amount.

Proportion of the land seeded in wheat is expected to show a very sharp drop.

A reliable report from the Sangu area indicated only 40 per cent of last year's wheat acreage would be sown to the same crop this year.

Seeding will not be finished in some districts for at least a week, departmental officials said.

In some parts of southern Alberta, and in eastern sections of

### DOWNTOWN SPOT OFFERED HERE

Anyone looking for a downtown business space? In the classified columns of The Bulletin today there is an advertisement for a space in a busy downtown store for rent.

The space is listed under Classification 79 of the want ad section.

### Arbitration For Painters

Request of Edmonton painters for a wage boost to \$1.25 an hour, rejected by the employers, will be discussed by an arbitration board.

George B. Henwood has been selected by the Alberta department of industries and labour as chairman of the board. Employees will be represented by H. G. Turner, secretary of the Edmonton Trades and Labor Council, while spokesman for the employers will be K. L. Lawson, president of the Chicago Vocational Training Corporation.

Painters had been receiving \$1.10 an hour and asked for the additional 15 cents an hour.

Their plea was rejected by the employers and efforts at conciliation had failed.

Next step provided under Alberta labor legislation is the appointment of a board of arbitration.

If the award made by the board is not accepted, regulations provide for the taking of a strike vote.

The organ was developed from freed pipes, and works on the same principle as those wind instruments.

### At City Hall

By Wm. "Spud" Murphy

The tolerant viewpoint of the war period, nor performance of civic projects, has disappeared.

That interlude of fun and frolic, when manpower and materials shortages answered all questions, has passed.

Today demands for achievements are taking merriement out of life at the civic block, and are stepping its tempo up to fast hornpipe pace.

Complaints are regular fare for commissioners and superintendents.

A substantial portion of their working hours is occupied with them.

A complainant was at the Civic Block Tuesday. He evidently got the short end of the argument, and was seething.

As he waited for the elevator to take him to street level he cracked. "That legacy of the horse-and-buggy days just about represents the speed of civic achievement."

"I'd lay even money a healthy, fast snail would outstrip that contraption in a race from the ground to the sixth floor."

None of the seven or eight people patiently waiting for the elevator took his bet, but the general laugh that greeted the snail spurred the angry complainant to additional tirade against the elevator.

"Ever see its indicator?" he asked.

"Just like asking for information around here. It can't give an answer. It's out of order," he cracked.

"That elevator is typical of the Civic. The board has asked as he left to spread his gripe throughout his neighborhood.

There is little to be said for the civic block elevator except commend it for its long and faithful service. Traffic at the block has outgrown its capacity and its pace.

Incidentally, the board and city commissioners are at loggerheads on the question of zoning auto courts. Commissioners want them located on inner zone property served with utilities. The board's opinion is they should be located in the city's outskirts. The battle is still being fought.

Come the September school opening (Chairman S. T. Laurin is probably the hardest worked of any civic organization, its meeting days are the second and fourth Fridays. Business meetings seldom conclude until late in the evening.

Negotiations are proceeding between Edmonton and West Jasper Place school boards for the use of the old Glenora school and rooms at the Technical school, 101 street, to accommodate students from the city's western suburb.

A building program to provide 15 class rooms has been authorized by West Jasper Place school board but accommodation must be found for approximately 300 pupils until schools have been completed.

Mid-June flood on North Saskatchewan River may be serious, in the opinion of city engineer's department executives. Had the Clearwater river runoff synchronized with the recent river rise serious flooding would have resulted. They fear the meeting of high water levels from both river, in the June run-off.

Labor disputes are again darkening the civic government's horizon. Recent wage increase granted building trade labourers by the Builders' Exchange is bringing repercussions in Civic Union Local 30.

Members of this union intend to seek similar increases. And members of Civic Union 32 clerical

Major Harry Ainlay is marooned somewhere on the banks of the Fraser river. It is possible his British Columbian home, also on the banks of that river, has taken a considerable beating in the flood.

Value of building permits granted by four major Alberta cities was up 57 per cent for the first three months of 1948 as compared to the same period in 1947.

Hon. Dr. J. L. Robinson, Alberta minister of industries and labor revealed Tuesday that production figures in the province during the opening two and three months of this year were higher than last year's total.

Agricultural production figures were also sharply up in January and February this year over last with hog production showing a 91 per cent boost.

Last Rites Today For J. D. Publicover

Last rites for John D. Publicover, 71, 987 32 avenue, will be held in Haintock funeral chapel at 2 p.m. today.

Mr. Publicover was well known as a northern Alberta business man for more than 40 years.

He came to Edmonton in 1905 and started a fishing business in Alberta lakes.

He retired from business in 1942. He was a member of the Orange Lodge and of the IOOF.

He is survived by his wife; one son, Lloyd, Montreal, and two daughters, Margaret and Francis, Edmonton.

Burial will be in Mount Pleasant cemetery.

**TIRELESS WORKERS** piled sandbags throughout the night Sunday when high tides, coupled with raging Fraser River waters, threatened to burst dykes around B.C.'s low-lying Lulu Island farm district. Thousands

of bags were filled and stacked along the embankments before 3 a.m. Monday when the tide turned and workers knew they had succeeded in their desperate task.

### Wild Well's Oil Flow Dropping

Oil flow from the Atlantic No. 3 well-head and craters is reported to have fallen to 4,000 barrels per day from the estimated peak production of 10,000 barrels.

Reason for the reduction in the rate of flow is not definitely known.

Water is still being pumped into Imperial No. 48 in an effort to flood the porous formations but there is no proof that this has reached the Atlantic area.

There is a possibility that cratering at the bottom of the un-cased hole may be restricting the flow of oil.

Reduction in the amount of oil being delivered from Atlantic may result in resumption of restricted production elsewhere in the field.

The task of cleaning up the area around the wild well is nearing completion and oil men hope that oil from loaded storage tanks will soon be flowing to the railhead at Nisku.

### Refresher Course Opens Monday At University

More than 80 Alberta school officials and divisional secretary-treasurers are expected to attend a refresher course in school administration at the University of Alberta next week.

The course extends over four days commencing Monday in the Medical Arts building.

The school division officials will hear talks and hold discussions on different aspects of school administration.

### Divorce Granted

A decree nisi of divorce was granted in supreme court today by Mr. Justice Boyd McElreath to Jennie Hunchak from Alex Hunchak, came to a vote.

### HSA ELECTS '48 OFFICERS

G. R. Hoadley was elected president of the King Edward Home and School Association at the group's final spring meeting.

Other officers elected were J. B. Bolton, vice-president; Mrs. H. E. Pollon, treasurer; and Mrs. R. D. McLean secretary.

### Policeman Held For Attempted Armed Robbery

COCHRAN, Ont., June 2.—(CP)—Provincial Police here have arrested a member of the Toronto City police department on a charge of attempted armed robbery.

Charles Bernstein, owner of a Cochrane fruit warehouse, told police a man wearing a white handkerchief over his face entered the building late Monday, thrust a pistol in his face and ordered him to "turn out the lights."

Provincial police arrested a man they later identified as Constable Randolph Janer of Toronto.

Janer has been with the Toronto force for the last five months. He will appear for trial Monday.

### Schuman Wins Confidence Vote

PARIS, June 2.—(HUP)—Premier Robert Schuman won his seventh vote of confidence in the National Assembly yesterday.

Schuman staked the life of his government on its rights to dismiss 150,000 civil service employees as an economy measure.

A week-end compromise formula designed to meet the objections of the Socialists to the government saved the crisis even before it came to a vote.

### One Hurt, One Jailed In Traffic Smashup

One man is in hospital and another man is being held by police following a traffic collision at 104 avenue and 106 street Tuesday afternoon.

Charged with dangerous driving is Martin Onofreychuk of Cardiff, Alberta, who was arrested by police immediately following the accident.

Onofreychuk appeared in police court and was remanded until June 18. No plea was taken.

The other driver, a 16 St. George Crescent, with back injuries, was taken to the St. George's hospital.

His son, W. L. Wilkin, driver of the car, suffered a slight cut on his right wrist.

According to police, Onofreychuk was driving west on 104 avenue towards 106 street, some distance behind a truck travelling in the same direction.

Onofreychuk is alleged to have swerved out from behind the truck to turn south on 106 street.

As he swerved out he is said to have struck the left rear fender of the car driven by Wilkin, which was proceeding east on 104 avenue.

Wilkin's father and Terry Forest, 16 Wellington Crescent, were passengers in the back seat of the Wilkin car.

Impact of the collision swung the Wilkin car around until it collided with a parked truck owned by Louis Babish, 11811 101 street, police said.

The truck, loaded with oxygen tanks, was parked on gravel south of 104 avenue.

The elder Wilkin, in the right rear seat of the vehicle, was thrown to the floor.

Dr. Lobsig administered aid and Wilkin was taken to the hospital in a Paul's Ambulance.

X-rays were taken Tuesday afternoon. Hospital officials described Wilkin's condition as "good."

### Peace River Drops Slowly

A huge 1,100-foot long dike, keeping back flood waters of the Peace river from the town of the same name, was still holding fast today, but the danger point is not yet passed.

Level of the river, which is about 20 feet above normal, is continuing to drop slowly and today is about 11 inches below its peak of last Sunday.

It is still more than a foot above its high banks, however, and will have to recede considerably more before the town is out of danger.

Trucks, which had been operating day and night hauling dirt and sand for the big dike, stopped running Tuesday night and only one bulldozer is still working at the scene.

All available men and machinery are standing-by in case of another rise in the rampaging river.

### Heads Missions

CALGARY, June 2.—(CP)—Rev. Malcolm A. Mark was installed in the office of superintendent of Presbyterian Missions in Alberta and British Columbia at a designation service in Grace Presbyterian church.

### First Concert Slated Sunday

First hand concert of the summer will be conducted Sunday, June 6, at Queen Elizabeth Park, at 2 p.m.

The concert will be staged by the Edmonton School Boys' Band under direction of handmaster T. V. Newlove.

Program for the entire summer season is expected to be arranged by the Edmonton Recreation Commission later this week.

## VON Supervisor Visits in Edmonton

Million Visits to Patients  
During 1947, Says VON Head

Nearly a million visits were made to patients last year by Victorian Order of Nurses according to Miss Esther Robertson, VON western supervisor, who is visiting in Edmonton for a few days.

This startling increase was revealed today by Miss Robertson who is conferring here with VON staff and board members.

On the road for 10 months of the year, she travels from Port Arthur to her headquarters in Vancouver twice yearly visiting and discussing problems with the 17 branches.

The public in Edmonton is more aware than ever before that VON service is available, says Miss Robertson. She added that doctors are now using the service more extensively. This year, 51 per cent of visits have been for actual nursing service compared with 51 per cent during the same period last year.

Personnel problems are not boding the VON although there are staff vacancies in all parts of Canada. Miss Robertson says she is always on the lookout for nurses for supervising duties.

Promising students are helped through public health nursing courses by scholarships. There are 25 \$500 scholarships given in Canada each year. Club Victoria in Edmonton has recently contributed \$100 to this scholarship fund.

Primary purpose of VON work is bedside nursing with teaching in the home, pre-natal clinics and visiting of mothers with new babies or other services.

In addition, the VON provides field work in public health nursing for university students, as part of their course.

Miss Robertson, who has just returned from New York where she received her Bachelor of Science degree from Columbia University, has recently completed visits in all branches of nursing.

In her present supervisory position since 1945, Miss Robertson is a graduate of Royal Victoria Hospital school of nursing and the University of Toronto. She was born in Wetzak, Wis.

## Martha Peters Becomes Bride

PEACE RIVER, June 2.—In a recent double-ring wedding ceremony Martha Peters, daughter of Mr. and Mrs. Henry Peters, claimant, became the bride of Robert John Reid, son of Mr. and Mrs. Robert Reid, 174th.

The Rev. W. W. McNaughton, SSM, performed the ceremony. Joy Reid played the wedding music and during the signing of the register Harold Peters was soloist.

Given in marriage by her father the bride wore a satin dress fashioned with a full skirt terminating in a train. She chose a full-length veil and carried a white lily marked with streamers and rose buds.

Edna Peters was bridesmaid and Evelyn and Margaret Reid Peters were flower girls.

Walter Warren, SSM, was best man and usher were Chester Thomas, Kurt Friebe, Bob Sutherland and Hans Berg.

A three-tier wedding cake embedded in tulle centred the bride's table. Three hundred guests attended the reception.

Following a honeymoon Mr. and Mrs. Reid will reside at Spruce Grove.

Following a honeymoon Mr. and Mrs. Reid will reside at Spruce Grove.

Edna Peters was bridesmaid and Evelyn and Margaret Reid Peters were flower girls.

Walter Warren, SSM, was best man and usher were Chester Thomas, Kurt Friebe, Bob Sutherland and Hans Berg.

A three-tier wedding cake embedded in tulle centred the bride's table. Three hundred guests attended the reception.

Following a honeymoon Mr. and Mrs. Reid will reside at Spruce Grove.

Edna Peters was bridesmaid and Evelyn and Margaret Reid Peters were flower girls.

Walter Warren, SSM, was best man and usher were Chester Thomas, Kurt Friebe, Bob Sutherland and Hans Berg.

CANDLE-LIT ALTAR formed the setting for the recent wedding of Laurence Gertrude Bruford to Frank Arthur Carr. The bride is the daughter of Mrs. J. Dianzuck and the late H. N. Bruford of Edmonton and the bridegroom is the son of the late Mr. and Mrs. F. A. Carr of Lacombe, Eng. They were married at Grace Lutheran Church.

## Gladioli Grace Church For Wylie-Riley Vows

Gladioli and ferns decorated Holy Trinity Church for the wedding Saturday at 8 p.m. of Vivian Viola Riley, daughter of Mrs. V. T. Riley and the late Mr. Riley, and James Arthur Wylie, son of Mr. and Mrs. C. Wylie.

The Rev. Wm. Nainby performed the ceremony. During the signing of the register Mrs. T. H. Mackie sang O Perfect Love.

Given in marriage by her brother, Volney Riley, bride wore a white nylon tulle dress styled with a net yoke, lily-point sleeves, bustle back and skirt terminating in a train. She carried a bouquet of pink roses and white carnations and wore a point tiara ring encrusted with a diamond, gift of the bridegroom.

Mrs. T. Holden attended the bride as matron-of-honor and Marion Puffer as bridesmaid. Mrs. Holden chose a dusky rose crepe dress complemented with matching mittens and headress. Miss Puffer wore a turquoise blue crepe dress complemented with matching head-dress and mittens. Both attendants carried bouquets of pink carnations and mauve sweet peas.

Mothers of the bride and bridegroom received with the bride party at a reception in the Macdonald hotel.

Wedding cake embedded in yellow roses centred the bride's table. Mrs. T. Holden and Mrs. J. A. Wylie presided at the tea urn. Richard Scragg proposed the toast to the bride.

Later the couple left for a honeymoon trip to Banff, the bride travelling in a gray suit comple-

mented with mauve accessories and carriage of roses and sweet peas. Upon their return Mr. and Mrs. Wylie will reside in Edmonton.

The bride is a 1948 graduate in Pharmacy from the University of Alberta and is a member of the Delta Delta fraternity. Mr. Wylie is studying Pharmacy at the U. of A. and is affiliated with Delta Upsilon fraternity.

## Calcutta Visitors Fascinated by Canada

By Margaret Weir  
Pacinated with the beauty and vastness of Canada Michael Georgiadi, MBE, and Mrs. Georgiadi are visitors in the city from Calcutta.

The Eastern visitors are travelling to Vancouver where they will make their home. British Columbia Hoeds forced Mr. and Mrs. Georgiadi to spend Wednesday in the city.

Mr. and Mrs. Georgiadi were accompanied by Mrs. Georgiadi's mother, Mrs. Georgiadi, who is a well-known social figure in Calcutta. They are staying at the Hotel Vancouver.

Future of India is not bright in either the business or economic spheres in the opinion of Michael Georgiadi. In the past he was engaged in the cotton export business.

Both visitors find the contrast between Canada and India amusing. Every acre of land in the Eastern country is cultivated, while the struggle for life is continued.

A vast stretches of Canadian prairie are a new sight to Mr. and Mrs. Georgiadi.

A Hussar, Mrs. Georgiadi was educated in Manchuria. Five months ago she and her husband were married in Calcutta. Tall and slight, the dark-skinned woman wears Western clothes both practical and colorful.

"Mr. and Mrs. Georgiadi leave Edmonton by plane Wednesday for their new home at the Pacific Coast."

HOLLYWOOD BUFFON Red Skelton gets tangled up in more than brushes when he plays the title role in Columbia's "The Fuller Brush Man" with Janet Blair, opening at the Rialto theatre today for a four-day engagement.

### She Only Wants '\$10,000 Plus'

## Offers are Plentiful, Hasn't Selected Mate

NEW YORK, June 2.—(AP)—The month of marriages made its own vocabulary, but the marriage plans of pretty Mrs. Dorothy Lawlor still are unsettled.

Mrs. Lawlor, blonde actress and mother of two children, is trying to decide whether to marry a man who has offered her \$10,000 plus, or a man who has offered her \$10,000 plus, or a man who has offered her \$10,000 plus.

He has to have "special" qualifications—viz. he willing to settle "sixteen" plus" on her. The offers have been coming from all parts of the United States, many boasting the ante.

Yesterday, the pretty divorcee was asked a \$10,000 plus a house, and a young island roadhouse, and a certain Mr. X had the unusual crack on the job site attorney.

"Mr. X is a handsome fellow," Mrs. Lawlor wrote Mrs. Lawlor yesterday, "but he wouldn't get to New York immediately but to keep his offer open. He sent along a \$100 cheque."

The mysterious Kentucky arrival Sunday and both he and Mrs. Lawlor seemed pleased with each other, but Mrs. Lawlor complained yesterday she had not made her decision as yet.

Among other offers she is considering is one from an Oklahoma rancher worth some \$200,000. "If he will make a good father," she may think seriously of him, she said.

## Inside Hollywood

By Bob Thomas

HOLLYWOOD.—(AP)—The problem of getting Ma and Pa into a movie theatre is an important one in Hollywood today.

A recent survey which reported that 80 per cent of the movie audience is under 40 years of age came as a shock to many people in Hollywood. The younger folks who have been the backbone of the film industry since the late teens never realized so few oldsters were going.

Some critics think it is time to get the older citizens to attend film houses more often. The current business slump will be solved, at any rate, the AP Hollywood forum has thrown the question open for discussion.

Van Johnston, "I think popcorn and double features have done a lot to keep the old folks away. They don't want to pay to listen to the crunch of popcorn. And they don't want to sit for hours and hours looking at two pictures. The seats get too hard."

EVERYTHING TOO OBVIOUS

Joseph Cotton: "Movie markets have made pictures so easy for an audience that you can sit and watch them in a half-conscious state. Everything is too obvious."

Charles Bickford: "Audience get fed up with seeing only teenage romance on the screen. There should be more middle-aged romances, with guys like Charles Bickford. (Heard laughing) "I believe there are four factors in the drop of adult movie attendance: 1. In the picture, contrived scenes are discouraged from going to the theatre because of theatre owners' business losses, cramped seats and faulty ventilation. 2. Few films are aimed at adult intelligence. 3. The excessive advertising often pulls people into seeing awful pictures. 4. Doubtful about support audience."

## Tax Cuts Mean Inflation—Abbott

Reductions Would Increase Prices Says Finance Minister

By D'Arcy O'Donnell

OTTAWA, June 2.—(CP)—Finance Minister Abbott reiterated today in the commons that heavy tax reductions this year would have boosted prices rather than reduced them.

Inflationary pressures still are strong in Canada, he said, and as a result he decided this was not a year to implement substantial tax reductions.

He made the statement after John Diefenbaker (PC, Lake Centre) asked why the government had not used its huge surplus to lower the cost of living.

The debate was on resolutions to a bill which will give effect to the tax changes introduced in the budget May 18.

A resolution providing for the removal of the eight-percent sales tax on a lengthy list of staple food products provoked lengthy debate.

Abbott said he has no official information but the critics heard him say that some stores had passed along the saving from its removal the day after the budget was introduced.

Prices could only be policed by the law of supply and demand. The only alternative was price control with inspectors going from store to store checking prices.

The resolution providing for removal of the sales tax on food was one of several approved by members before the dinner recess.

Also approved were resolutions providing for the repeal of the amusement and entertainment taxes and the excise tax on horse race bets. Another resolution providing excise for export of the excise-duty on spirits used in the production of vinegar was passed without debate.

### Vegreville Seeks To Nominate On June 19

Nominating convention to select a Social Credit candidate for Vegreville constituency will be held in Vegreville on June 19.

M. H. Ponich of Two Hills, Social Credit member of the legislature for Vegreville, was a business visitor in Edmonton today.

He said he expected to let his name go before the convention again.

### Two Envoys Are Recalled

LONDON, June 2.—(AP)—A spokesman for the official Yugoslav news agency today said that the Yugoslav government has recalled its ambassadors from London and Ankara.

The Yugoslav ambassador to Britain, Dr. L. Lomce, now is in Belgrade. He left for his home capital some weeks ago.

The Yugoslav spokesman said a radio transmission from Belgrade this afternoon reported: "On the proposal of the Yugoslav government, the national assembly has decided to recall the ambassadors from London and Ankara."

Later Dr. L. Lomce, charge d'affaires at the Yugoslav embassy, said Lomce has been recalled "at his own wish."

Kan said he could not speak for British State, who represents the Belgrade government in Ankara.

### Loans Under NHA Show Sharp Rise

OTTAWA, June 2.—(CP)—A sharp rise in the amount of money loaned under the National Housing Act during the first four months of 1938 was announced Monday by Central Mortgage and Housing Corporation.

Financial assistance for home building in the first four months of 1938 amounted to \$21,341,000, for 1937 to \$18,341,000, a 16 per cent increase.

## Travel Is Banned In Ontario Fire Regions

TORONTO, June 2.—(CP)—The fire-ravaged forests of northern Ontario were closed today to all persons except those on "essential" business.

John Diefenbaker, chief of the forest protection division of the Ontario lands department, made the announcement.

Travel bans and travel applies to all travel permit areas and takes in the bulk of the northland and will be in effect indefinitely, he said.

"From now on, only people with legitimate business—people engaged in fire-suppression or in some other essential work—will be permitted to enter the bush."

One of the three major blazes in the Mississauga district, 56 miles northwest of Blind river is one of the largest and costliest in Ontario history, Mr. Mackey said.

It is expected to take within a few days with a \$400,000 fire in the Cheltenham area, a separate section. The fires now are being put out by 10 to 15 miles.

## Seven High Nazis Die on Gallows

Doctors, Elite Guard Officers Are Hanged for War Crimes

LANDSBERG, Germany, June 2.—(AP)—Seven German doctors and S.S. (Elite Guard) officers died on American gallows today for war crimes.

They were convicted of killing and maiming thousands in brutal medical experiments in Nazi concentration camps. Their victims were prisoners at the camps.

They were the first to be hanged of 28 Germans sentenced to death by United States war crimes courts at Nurnberg.

Several died protesting their innocence and complaining against the American system of justice when convicted.

All walked firmly to death on two black gallows in the courtyard of the prison where Adolf Hitler wrote "Mein Kampf" while confined there after his Munich Putsch 25 years ago.

**NO RELIGIOUS SOLACE**  
The last man dropped to his knees just 62 minutes after the first stepped on the trap.

Carl Gebhardt, 50, once president of the German Red Cross, head surgeon of the Elite Guard and personal physician of Heinrich Himmler.

Joachim Murgowsky, 42, chief elite guard physician.

Wolfgang Siewers, 58, colonel and director of the military research institute.

Victor Brack, 58, colonel and chief administrative officer under Martin Bormann.

Waldemar Hoven, chief medical officer at Buchenwald.

Rudolf Brandt, adjutant to Himmler and chief of SS system.

Five other defendants convicted at the trial, which ended June 1, were sentenced to life imprisonment. Four received 10-year terms. Seven of the 23 original defendants were acquitted.

Vigorous enough for work clothes.. Gentle enough for lingerie

## GENERAL ELECTRIC WASHERS

... with the Alumilited Aluminum tub

Latest model G-E Washers now have one-piece aluminum tubs with the wonderful Alumilited Finish. Alumiliting is a new process which imparts to the surface of the tub extreme hardness and resistance to corrosion.

The famous G-E Activator gives three distinct zones of washing action... first dipping, then flexing and finally, gentle scrubbing. The G-E Washer gets clothes cleaner—quicker. Clothes are brighter, stay new-looking longer. Because it's so gentle—yet so thorough—it prolongs the life of your clothes and you soon discover that your G-E Washer pays for itself.

**Light Weight.** One-piece aluminum tub... light and easy to move... free-rolling casters.

**Non-Chipping.** No chipping or flaking. Smooth, satin finish. Easy to clean.

**Extra Durable.** All gears, shafts, are steel cut, case hardened for long life. Legs spot-welded, braced for greater strength.

**Famous G-E Activator.** Tumbles the clothes... forces soap and suds through every piece of washing... yet so gentle it cannot harm fine fabrics.

**Perma-Drive.** Only four moving parts... longer life. Dishes drive the belt—no pulleys. More power for washing action.

**Guarantee.** Canadian General Electric gives a written warranty against defective materials and faulty workmanship.

## CUTIES

By E. Simms Campbell

"It's the greatest of all reducing exercises... instead of a second helping, PUSH yourself back from the dinner table."

## PUBLIC NOTICE To Water Consumers

Owing to the increased demand for water by reason of the rapidly expanding industrial and residential development in the City and to the inability of the City to construct additional mains because of the shortage of suitable supplies and material, chiefly large steel and cast iron pipes, and the lack of competent labor to install same, water pressure in the City mains has during certain hours of the day become so low as to leave some districts within the City without water supply, consequently the City Commissioners deem it necessary in the public interest to impose certain restrictions with regard to the use of water from the City Waterworks System so as to meet the existing situation.

Therefore, pursuant to statutory authority so to do, the Commissioners of The City of Edmonton have passed the following special regulations, namely:

1. No person, other than market gardeners, shall use any water either directly from the City water mains or from any private water service connected therewith for the purpose of sprinkling or irrigating lawns, lawns or gardens, between the hours of 6:30 and 9:30 in the afternoon of every day of the week.
2. The proper officials of the Waterworks Department of the City are hereby authorized to limit the amount of water to be delivered to any water service, the owner or user of which contravenes the foregoing regulations.
3. These regulations shall enter into force and effect on the 1st day of June, 1948, and continue in force until the 15th day of September, 1948.

If the foregoing regulations are not observed or if they are found to be inadequate to meet the situation, it may become necessary to impose further restrictions to achieve the purpose stated.

DATED at Edmonton, Alberta, this 2nd day of June, 1948

THE CITY COMMISSIONERS, THE CITY OF EDMONTON

Store Opens at 9:30 a.m., Closes at 5:30 p.m. Daily, Except Wednesday, 9:30 a.m. to 12:30 p.m. (Mountain Standard Time)—To Call EATON'S Dial 9-1-2. See Window Displays!

**IT PAYS TO SHOP AT EATON'S -FOR VALUE- FOR QUALITY****It's Here... at EATON'S! The New  
Richard Hudnut  
Home Permanent Set**

Now you can get the benefits of the skill and know-how of Richard Hudnut's Salon for as little as \$3.25. This new professional style home permanent was developed by Richard Hudnut's experts, who know and understand the waves and ways of hair.

**IT'S EASY**—The long, strong end papers make hair tips easy to handle—and there are 60 curling rods in two different lengths (the standard size for ringlet ends, and extra long size for deep crown waves).

**SET CONTAINS** Creme Wave Lotion, 60 plastic curling rods, generous supply of end papers, and neutralizer—plus a 2-oz. bottle of Creme Rinse. Also a clearly explained, illustrated, instructional booklet.

1—Shampoo, section hair. Moisten 1/2-inch strands with waving lotion and roll on end paper and rods. Secure with rubber bands.

2—Apply waving lotion to each individual curl.

3—Wait for described timing. Saturate curls with neutralizing mixture. Remove curlers and rinse with Cream Rinse.

4—Your hair is ready to set in the style you want. That's all.

**SPLENDID RESULTS**—Even if you have never had a home permanent... you will be thrilled with this new home set! Attain soft, lovely curls in your own most becoming coiffure, depending of course on the condition and texture of your hair... and following instructions.
